Terms and conditions and cost implications may apply. Our terms can be found at [www.globaltelemetrics.eu/terms](http://www.globaltelemetrics.eu/terms). If you require a copy of the terms and conditions please contact customer services on 0845 833 6971. All operations are dependent upon vehicle usage, a suitably charged vehicle battery, GPRS/GSM coverage, internet connections and product capabilities.

Product specification and information correct at the time of press.

## Ideal for all Motorhomes and Caravans

**All SmarTrack Stolen Vehicle Tracking devices are tested to Thatcham TQA standard. They operate using GPS, GPRS and GSM technology, supporting two internal aerials and a three axis motion sensor. Having an in-built battery back-up the device has the ability to remain operational even when the vehicles power supply is removed. The device monitors the battery voltage level and detects the status of the vehicles ignition.**

**Subscription** - Once the Subscription is purchased, the device becomes fully monitored by Global Telemetrics Secure Control Centre. A Welcome Pack will be sent, which will contain the certification for your insurance. The User Manual and Emergency Contact Card will be issued at time of installation by the Engineer. The User Manual is also available online.

**Monitoring** - Global Telemetrics SCC monitors your vehicle's status for you 24 hours a day and 365 days of the year. A member of staff will call you if your vehicle is 'illegally' moved (without the vehicle ignition being used) or if the battery is disconnected. If your vehicle battery runs low you will receive a text message requesting you charge the vehicle battery.
